

## **USER GROUPS**

All schools that write the IEB examinations are entitled to belong to the User Group Forums. The User Groups provide a networking system for teachers in their subjects. Regional meetings and conferences are held regularly and matters of curriculum, methodology and assessment are discussed at workshops. Tests, examinations and worksheets are shared. Once a year, the IEB hosts a National Conference for each subject. The IEB considers the proposals from the User Groups as the basis for changes in their process of assessment and moderation.

To find out more about:

- how to attend User Groups
- dates and venues of User Groups
