12. Take note of the illustrations on your answer sheet showing the correct way to complete the answer sheet.
13. Do not fill in more than one option in your response, because neither option will be considered in marking.

**Read the passage below and answer the questions which follow**

1. My grandmother was called Makhulomhlophe (Grandmother with a Light Complexion) - Makhulu for short. She met and married my grandfather, Madoda Mkhwanazi, in Mount Fletcher and they moved to Ndawana. She was widowed in 1971, and never married again. She had high cheekbones and traditional markings on her face. Makhulu was very short and skinny, with very dry and pleated skin.
2. She always wore a denim skirt and blouse with a red pinafore, but wore a black crimplene skirt to church on Sundays and always walked barefoot. She was very talkative and popular. To this day people laugh when they tell me stories about her.
3. She looked after us children while our mother worked in the fields and our father was working in the Welkom mines. To this day, I miss those wonderful stories she would tell us as we all sat around the fire in the kitchen. They were full of mystery and strange people, cannibals and people who lived in the deep parts of the river.
4. My grandmother painted the most amazing pictures on the inside wall of her kitchen rondavel with red, black and white paint. This she made by mixing different coloured soils with water, painting with her fingers. We children loved to join in and we would paint horses and cattle with her. She also painted lovely pictures of huge bulls and people running. The local children used to laugh, and tease us about her paintings. Their hurtful remarks made us feel ashamed, so we would then cover the paintings with cream paint. It made her angry when we did this but she did appreciate having a nice, clean wall to begin painting all over again.
5. When I was in Grade 4 our teacher told us about the Bushmen who she said were very short, as short as I was. She also said that they no longer existed. After that, my classmates teased me and called me 'Umthwa' (Bushman). This hurt very much.
6. Makhulu often spoke about and dreamt of the ancestors. One day, in 1999, we overheard her telling my mother that her time was over. She said that the ancestors had visited her the night before and told her she was going to leave very soon. I felt very sad; I knew she spoke of death. She died three days later.
7. Two years ago, I joined a tourist guide course in the Southern Drakensberg area. On the second day, we took a trip to one of the beautiful rock art sites called Isiphongweni. I was very excited, and amazed when I saw the paintings, which looked just like my grandmother's. I realised that my grandmother's 'bull' was an Eland with its rump and dewlap, and that the 'running figures' were, in fact, people dancing.
8. Later, I showed my friend a photo of Makhulu and she excitedly said "There's no doubt, Makhulu was a Bushman." I was surprised when my mother confirmed this. I learned that there are many Bushmen living in our area near the Ukhahlamba Drakensberg National Park but that they are in hiding because they are ashamed and fear victimisation. After my experience in school, that reaction is not surprising.
9. Thank you Makhulu. I ask for forgiveness for hiding your paintings. I was ignorant. I am proud of being a Bushman. I know that the young Zulus in the area don't believe that Abathwa people still exist. I want to teach them the truth, and help Bushmen accept who they are without fear. I am what you are, a Bushman!
